PRODUCT CATALOGUE 2026

Chemistry That Powers Industry

Industrial chemicals, epoxy systems, textile dyes and agro commodities, supplied from Gujarat to manufacturers across India.

GRENZEN PHARMACHEM INDUSTRIES PVT. LTD.

- Epoxy & Varnish Raw Materials
- Textile Dyes & Intermediates
- Caustic Soda
- Agro & Cattle-Feed Commodities

ABOUT US

A dependable partner for industrial chemicals and agro commodities

Grenzen Pharmachem Industries Pvt. Ltd. is a Gujarat-based supplier of industrial chemicals and agro commodities. From our corporate office in Anand and warehouses at Mogri and Navsari, we supply epoxy and varnish raw materials, textile dyes and intermediates, caustic soda, and cattle-feed commodities to manufacturers and dairies across Gujarat and India.

We combine disciplined sourcing, careful storage and on-time dispatch with a working understanding of what our customers make. Every consignment is matched to the specification agreed with the customer.

Our next stage is manufacturing: a dedicated unit for iodine intermediates with a planned portfolio of 124 products, and a castor derivatives plant for hydrogenated castor oil (HCO) and 12-HSA with a planned capacity of 600 MT per month.

3

Locations across Gujarat: Anand, Mogri and Navsari

What we supply

- Epoxy & varnish raw materials
- Textile dyes & intermediates
- Caustic soda
- Agro & cattle-feed commodities

> Built on quality, integrity and reliability, and investing in the manufacturing capability to grow with our customers.

OUR PURPOSE

Our Vision

To make India a leader in iodine chemistry.

By 2028 we will manufacture a portfolio of 124 iodine intermediates in Gujarat, supplying pharmaceutical, diagnostic and specialty chemical manufacturers in India and overseas, while growing as the most dependable partner to the industries we serve today.

Our Mission

To supply industrial chemicals and agro commodities that meet specification every time, delivered safely and on schedule, and to invest in the manufacturing, people and quality systems that will carry us from trader to trusted manufacturer.

LOOKING AHEAD: WHAT WE ARE BUILDING

2028
Manufacturing launch
Commercial production of iodine intermediates at our own facility.

124
Iodine products
A complete portfolio for pharmaceutical and specialty chemical makers.

600 MT
Castor derivatives
Planned monthly capacity for HCO and 12-HSA.

Global
Export markets
Export-grade quality and documentation for customers worldwide.

Core Values

Quality
Materials that match the agreed specification, consignment after consignment.

Integrity
Honest commitments, transparent pricing and clear documentation.

Reliability
Planned inventory and dispatch so our customers' lines keep running.

Innovation
Moving from trading into manufacturing, starting with iodine intermediates.

From reliable supplier today to iodine manufacturer tomorrow.

WHY CHOOSE US

Six reasons manufacturers work with Grenzen

01

Strategic Gujarat locations

Corporate office in Anand with warehouses at Mogri and Navsari, close to major industrial and dairy clusters.

02

Dedicated storage

Separate facilities for chemicals and agro commodities, including a dedicated site for molasses at Navsari.

03

Consistent specifications

Each supply is matched to the customer's agreed specification and documented batch by batch.

04

Reliable volumes

Established monthly supply of molasses, DORB, caustic soda, acid dyes and epoxy systems.

05

Transparent terms

Clear pricing, GST-compliant invoicing and straightforward commercial terms.

06

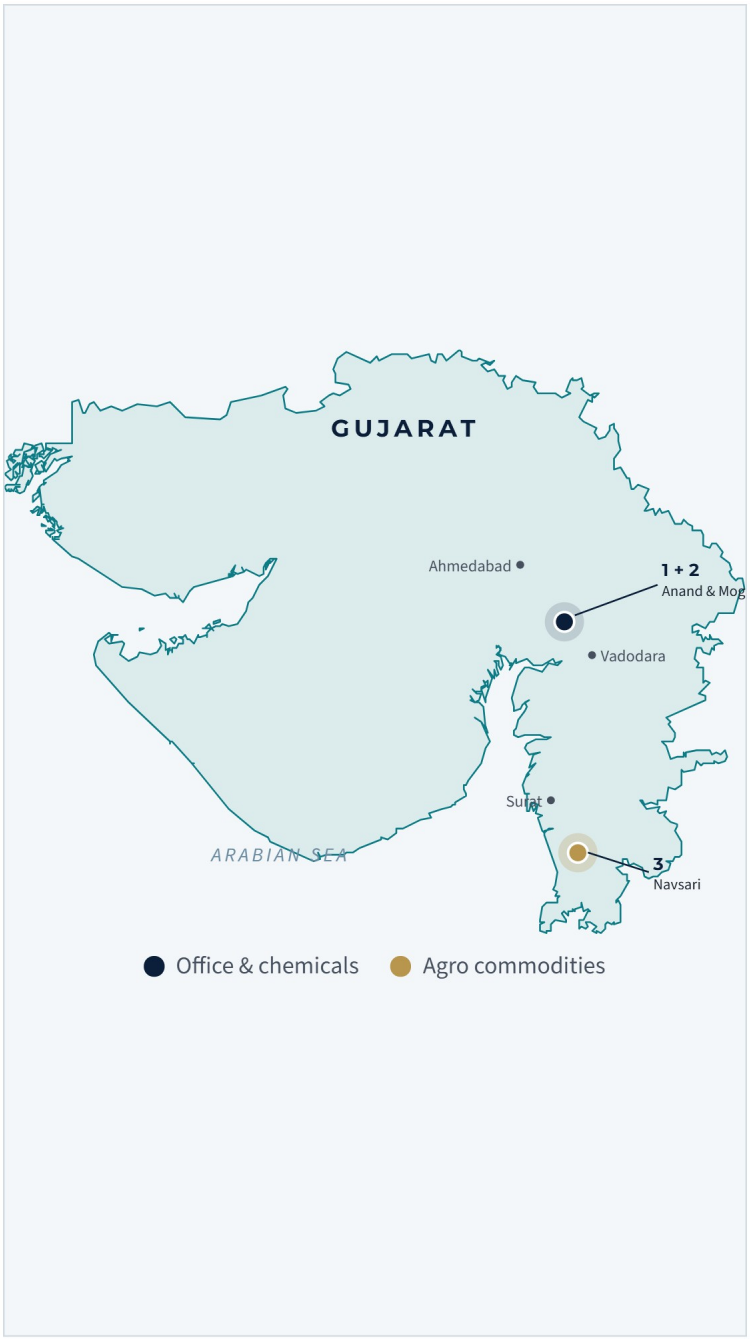

Responsive support

Direct access to the management team for order planning, technical queries and urgent requirements.

INFRASTRUCTURE

Three locations, one supply network

Our facilities are placed along Gujarat's central and southern industrial corridor, giving short lead times to manufacturers in Anand, Vadodara, Ahmedabad and Surat, and to dairies across the state.

1 CORPORATE OFFICE

Anand

Raghuvir Chamber,
ISKCON Mandir Road,
Vallabh Vidyanagar,
Anand, Gujarat 388120

Management, sales, procurement and accounts

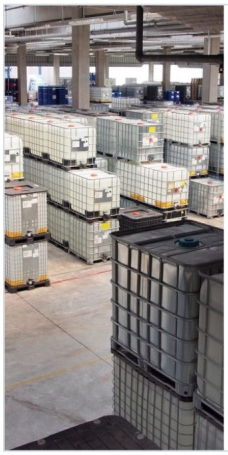

2 WAREHOUSE 1

Mogri

Opp. Kumar Shala,
Mogri, Anand,
Gujarat 388345

Storage and dispatch of industrial chemicals, dyes and caustic soda

3 WAREHOUSE 2

Navsari

City Survey No.
1808/002, Talav Chowk,
Chikhli, Navsari,
Gujarat 396521

Dedicated facility for molasses and agro-commodity handling

Road connectivity

Close to NH-48 and state highways for tanker and truck dispatch.

Segregated storage

Chemicals and feed commodities stored in separate facilities.

Bulk & packed goods

Handling for drums, bags and bulk tanker loads.

KEY NUMBERS

Scale you can plan around

Monthly volumes and infrastructure that support dependable, repeat supply for industrial and dairy customers.

SECTION 02 · PRODUCT PORTFOLIO

A Epoxy & Varnish Raw Materials

Resins, modifiers and hardeners for manufacturers of transformer varnishes, electrical motor varnishes and insulating compounds, where dielectric strength and thermal stability are critical.

- Power transformers
- Electric motors & windings
- Insulating varnishes

PRODUCT RANGE

Epoxy systems for electrical varnishes

ER

Epoxy Resin

3 MT / month

Base resin for impregnating and coating varnishes, providing strong adhesion, low shrinkage and high electrical insulation after cure.

KEY APPLICATIONS

- Transformer impregnating varnish
- Motor winding varnish
- Potting & encapsulation

Parameter	Typical value
Epoxy equivalent weight	182–192 g/eq
Viscosity at 25 °C	11,000–14,000 mPa·s
Colour (Gardner)	≤ 1
Non-volatile content	≥ 99.5 %
Packing	200 kg drums

BM

Epoxy Base Modifier

3 MT / month

Reactive modifier blended with the base resin to adjust viscosity, flexibility and penetration into tightly wound coils.

KEY APPLICATIONS

- Viscosity reduction
- Improved flexibility
- Better coil penetration

Parameter	Typical value
Appearance	Clear, pale yellow liquid
Viscosity at 25 °C	500–1,500 mPa·s
Epoxy value	0.40–0.50 eq/100 g
Moisture	≤ 0.1 %
Packing	200 kg drums

MH

Epoxy Modifier Hardener

3 MT / month

Curing agent formulated for varnish systems, giving controlled pot life and a tough, heat-resistant cured film.

KEY APPLICATIONS

- Controlled cure & pot life
- Thermal class performance
- Chemical resistance

Parameter	Typical value
Appearance	Clear, light yellow liquid
Anhydride content	≥ 41 %
Viscosity at 25 °C	30–60 mPa·s
Mix ratio (resin : hardener)	100 : 80–90
Packing	200 kg drums

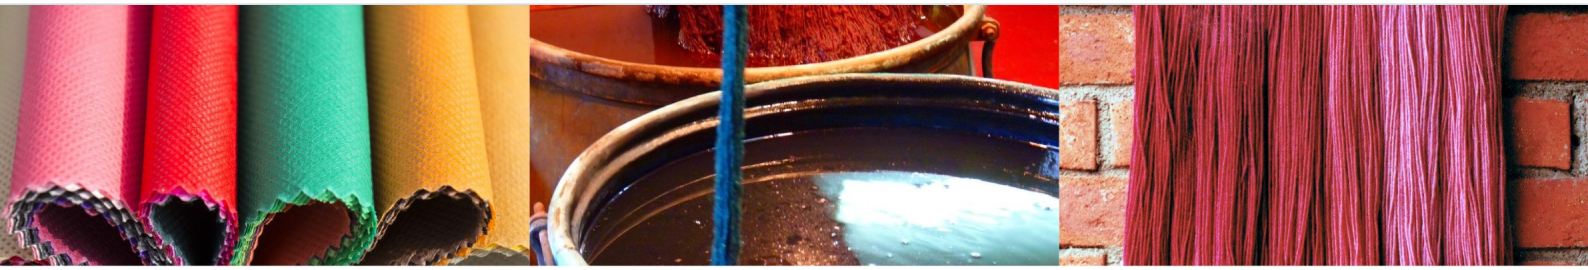

SECTION 02 · PRODUCT PORTFOLIO

B Industrial Textile Dyes & Intermediates

Acid dyes in yellow, red and black shades for wool, silk, nylon and leather, together with key dye intermediates for manufacturers in Gujarat's textile and dyestuff clusters.

- Textile & fabric dyeing
- Dye intermediates
- Leather & paper shading

PRODUCT RANGE

Acid dyes and dye intermediates

Acid Yellow Dyes

2 MT / month

Bright yellow shades with good levelling for protein and polyamide fibres.

Parameter	Value
Shade	As per standard
Strength	100 ± 3 %
Moisture	≤ 5 %
Solubility (90 °C)	≥ 60 g/L

Acid Red Dyes

2 MT / month

Clear red to bordeaux shades with good wash and light fastness.

Parameter	Value
Shade	As per standard
Strength	100 ± 3 %
Moisture	≤ 5 %
Solubility (90 °C)	≥ 60 g/L

Acid Black Dyes

2 MT / month

Deep, even blacks for wool, nylon and leather dyeing.

Parameter	Value
Shade	As per standard
Strength	100 ± 3 %
Moisture	≤ 5 %
Solubility (90 °C)	≥ 50 g/L

H-Acid

1-Amino-8-naphthol-3,6-disulfonic acid

Key naphthalene intermediate for reactive, direct and acid azo dyes, especially blacks, blues and reds.

Parameter	Value
Purity (by nitrite)	≥ 80 %
Moisture	≤ 5 %
Insolubles	≤ 0.5 %
Form	Off-white to grey powder

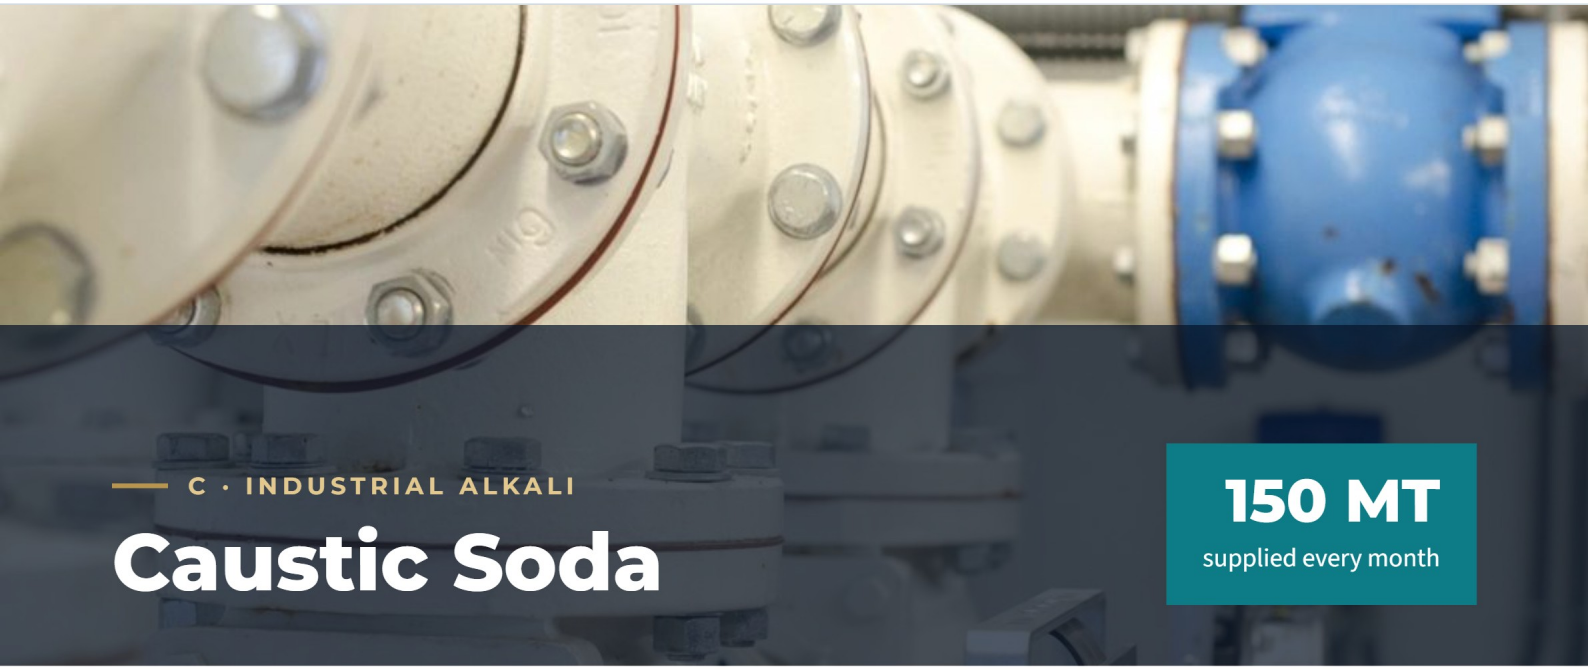

DNSDA

4,4′-Dinitrostilbene-2,2′-disulfonic acid

Stilbene intermediate used in the manufacture of optical brightening agents and direct dyes.

Parameter	Value
Purity (dry basis)	≥ 90 %
Moisture	≤ 10 %
Form	Yellow paste / powder
Packing	25 kg bags

Colour Index (C.I.) references, shade cards and certificates of analysis available on request.

C · INDUSTRIAL ALKALI

Caustic Soda

150 MT
supplied every month

Overview

Caustic soda (sodium hydroxide, NaOH) is one of the most widely used industrial alkalis. We supply consistent industrial grades to processors across Gujarat, stored under dry, controlled conditions at our Mogri warehouse.

Regular monthly volumes allow customers to plan production with confidence, backed by batch documentation for every consignment.

Key applications

- Textile processing
- Soaps & detergents
- Paper & pulp
- Water treatment
- Chemical processing
- Neutralisation & pH control

Corrosive (UN 1823 solid, UN 1824 solution). Stored dry, segregated from acids, and handled with appropriate PPE.

Typical specification

Parameter	Value
Form	Flakes (lye on request)
NaOH content	≥ 98 %
Sodium carbonate (Na_2CO_3)	≤ 0.5 %
Sodium chloride (NaCl)	≤ 0.05 %
Iron (Fe)	≤ 10 ppm

SUPPLY & PACKAGING

- Flakes in 50 kg HDPE bags
- Lye (48–50 %) in road tankers on request
- Scheduled monthly dispatches

D · AGRO & CATTLE-FEED COMMODITIES

Molasses

1,000 MT
supplied every month

Overview

Cane molasses is a valued energy source and palatability enhancer in compound cattle feed. We supply feed-grade molasses in bulk from our dedicated Navsari facility, close to South Gujarat's dairy cattle-feed plants.

We supply 1,000 MT of molasses every month to a leading South Gujarat dairy co-operative, with deliveries to its cattle-feed plant ongoing on a weekly schedule.

Key applications

- Compound cattle feed
- Feed pellet binding
- Energy for ruminants
- Improved palatability

Typical specification

Parameter	Value
HSN code	1703 10 00
Brix	≥ 80 °
Total reducing sugars	≥ 45 %
Moisture	≤ 20 %
Sulphated ash	≤ 15 %

SUPPLY & PACKAGING

- 1,000 MT per month, deliveries ongoing
- Bulk supply by road tanker
- Dedicated Navsari storage facility

D · AGRO & CATTLE-FEED COMMODITIES

De-Oiled Rice Bran

1,500+ MT
supplied every month

Overview

De-oiled rice bran (DORB) is the protein- and fibre-rich material that remains after rice bran oil is extracted. It is a cost-effective, widely used ingredient in compound cattle feed.

We supply more than 1,500 MT of DORB every month to multiple dairies across Gujarat, with consistent quality from established sourcing partners.

Key applications

- Compound cattle feed
- Dairy co-operatives
- Feed mills
- Protein & fibre source

Typical specification

Parameter	Value
Crude protein	≥ 14 %
Crude fibre	≤ 14 %
Residual oil	≤ 1 %
Moisture	≤ 10 %
Sand & silica	≤ 3.5 %

SUPPLY & PACKAGING

- Packed in 50 kg bags
- Truck-load dispatches across Gujarat
- Supply to multiple dairies

COMING SOON

124 Iodine Intermediates

PLANNED IODINE-BASED PRODUCTS

Grenzen is moving from trading into manufacturing. Our upcoming unit will produce a planned portfolio of 124 iodine intermediates for pharmaceutical and specialty chemical manufacturers, built on the same commitment to consistent quality and dependable supply.

2026

Company incorporated

Grenzen Pharmachem Industries Pvt. Ltd. established in Anand, Gujarat.

Now

Trading operations

Chemicals, dyes, caustic soda and agro commodities supplied across Gujarat.

Next

Manufacturing unit

Iodine intermediates facility being established.

2028

Commercial production

Launch of the 124-product iodine range.

Register early interest or request the product list: **info@grenzenpharmachem.com**

UPCOMING PROJECT

Castor Derivatives HCO & 12-HSA

600 MT
planned capacity per month

India grows most of the world's castor seed, and Gujarat is its largest producing state. Our planned plant will convert this local resource into hydrogenated castor oil and its derivatives, including 12-hydroxystearic acid, with a production capacity of 600 MT per month for grease, coatings, plastics and personal-care manufacturers in India and abroad.

HCO
Hydrogenated Castor Oil

Also known as castor wax: a hard, white, odourless wax made by hydrogenating castor oil. Its high melting point and hydroxyl content make it a versatile rheology modifier and lubricant.

- Lubricating greases
- Cosmetics
- Paints & coatings
- PVC processing
- Polishes & inks

Parameter	Target specification
Hydroxyl value	155–165 mg KOH/g
Iodine value	≤ 3 g I_2/100 g
Acid value	≤ 2 mg KOH/g
Melting point	84–88 °C
Form	White flakes / powder

12-HSA
12-Hydroxystearic Acid

A saturated fatty acid derived from hydrogenated castor oil and the key thickener for high-performance lithium and calcium greases.

- Lithium & calcium greases
- Metallic soaps
- Cosmetics
- Coatings & adhesives

Parameter	Target specification
Acid value	175–185 mg KOH/g
Hydroxyl value	≥ 150 mg KOH/g
Iodine value	≤ 3 g I_2/100 g
Melting point	74–80 °C
Form	Off-white flakes

Local raw material
Castor sourced from Gujarat's growing belt

600 MT / month
Planned HCO and derivatives output

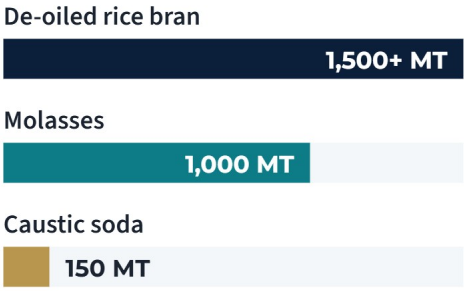

Domestic & export
Specifications aligned to global buyers

PURCHASE & SOURCING NETWORK

From reliable sources to your plant

We work with established producers for every product line, check each lot against the agreed specification, and hold stock at our own warehouses so that dispatch is planned, not improvised.

Diversified sourcing

Multiple suppliers per product to reduce supply risk.

Stock on hand

Buffer inventory for repeat monthly customers.

Documented lots

Supplier certificates retained for every lot.

INDUSTRIES WE SERVE

Electrical

Transformer and motor varnish manufacturers

Textiles

Dye houses, processors and dyestuff makers

Dairy & Cattle Feed

Dairy co-operatives and feed plants

Chemicals

Chemical and intermediate manufacturers

Paper

Pulp and paper mills

Water Treatment

Municipal and industrial treatment plants

QUALITY & COMPLIANCE

Quality built into every step

Our quality system is designed around one goal: every customer receives exactly what was agreed, safely stored, correctly documented and delivered on time.

Quality assurance process

01 · Supplier qualification
Sources are assessed for consistency, documentation and capacity before first purchase.

02 · Incoming verification
Each lot is checked against the agreed specification and supplier certificate of analysis.

03 · Controlled storage
Segregated, dry and labelled storage with first-in, first-out stock rotation.

04 · Batch traceability
Lot numbers recorded from receipt through to the customer's delivery challan.

05 · Dispatch checks
Quantity, packaging and documents verified before every dispatch.

Safe storage & handling

- Chemicals and feed commodities stored at separate sites
- Corrosives segregated from acids and moisture
- Safety data sheets available for every chemical
- PPE and spill kits at storage areas
- Clear hazard labelling on all packages

LEADERSHIP TEAM

Experienced hands, clear direction

A compact team combining commercial insight, sound governance, financial discipline and technical capability, personally involved in every customer relationship and in our journey from trusted supplier to manufacturer.

BOARD OF DIRECTORS

DIRECTOR

Dhruv K. Chambariya

Dhruv drives Grenzen's strategy and growth. He leads key industrial and dairy customer relationships, oversees sourcing partnerships and is steering the move into manufacturing.

FOCUS AREAS

- Business strategy
- Key accounts
- Manufacturing expansion

DIRECTOR

Chandrikaben B. Patel

Chandrikaben provides governance and oversight across the company, guiding administration, statutory compliance and internal controls so that growth rests on sound practice.

FOCUS AREAS

- Governance
- Compliance
- Long-term planning

MANAGEMENT TEAM

CHIEF FINANCIAL OFFICER

Aksh B. Patel

Aksh leads finance, from accounts and taxation to working capital and banking. His discipline lets Grenzen offer transparent terms and fund its planned expansion.

FOCUS AREAS

- Finance & accounts
- GST & taxation
- Capital planning

CHIEF TECHNICAL OFFICER

Dimpal K. Chambariya

Dimpal leads technology and digital presence, managing the website, IT systems and data, and supporting technical documentation such as specifications and data sheets.

FOCUS AREAS

- Website & digital
- IT systems
- Technical documentation

IN CONCLUSION

One dependable partner, from raw material to delivery

From electrical varnishes and textile dyes to caustic soda and cattle feed, Grenzen Pharmachem supplies the materials that keep Gujarat's industries running, and is building the manufacturing capability to serve them for decades to come.

A Epoxy & varnish raw materials
9 MT / month

B Acid dyes & intermediates
6 MT / month

C Caustic soda
150 MT / month

D Molasses & DORB
2,500+ MT / month

E Iodine intermediates
124 products · 2028

F Castor derivatives (HCO, 12-HSA)
600 MT / month planned

Working with us is simple

01 **Share your requirement**
Product, grade, quantity and delivery location.

02 **Receive specification & quote**
Technical data and a clear commercial offer.

03 **Scheduled supply**
Consistent quality, documented and on time.

Let's build something together.

Request samples, specifications or a quotation today.
